

Would you like to be a foster carer?

SSI multicultural foster care

strengthening children through culture

Every child has a right to a safe, happy and permanent home. SSI works with children and young people who need support from foster carers. This support could be on a short- or long- term basis.

They may need care just until it is safe for them to return to their parents care or until they are 18 years old.

Important qualities of a foster carer include:

- Having a genuine interest and focus on a child's wellbeing and future
- A willingness to help them understand their past
- A willingness to help them stay connected with their family, culture, language and religion

If you have a spare room and these qualities we *need* your support.

For more information about becoming a foster carer with SSI please contact
