

# A change to the Internet login process

Everyone who uses a BYOD or school-owned Windows device will need to log onto the Internet by:

- browsing to: <http://detnsw.net>
- logging into the portal with: `firstname.lastname@detnsw`

The screenshot shows the 'DOE INTERNET AT EDGE AUTHENTICATION PORTAL' login page. The header includes the NSW Education logo and the title 'DOE INTERNET AT EDGE AUTHENTICATION PORTAL'. The main heading is 'DoE Login is Required to access the Internet'. Below this, there is a blue icon of a person with a padlock, and the text 'You are required to identify yourself to enable access to the Internet.' To the right, there is a section titled 'Log in with your DoE account' with instructions: 'in the form of firstname.lastname@detnsw' and an example: 'Example: john.doe7@detnsw'. Below this are input fields for 'User' and 'Password', and a 'LOGIN' button.
